For Women Who Make A Difference

SUMMER PREP PROGRAMS

These preparatory programs are an intensive review of skill areas for students who wish to strengthen their preparation for college admission.

Sessions are designed specifically for students entering their Junior or Senior year in Fall 2011. These challenging summer programs provide an extra academic edge with early college planning and

in-depth topic-based SAT Prep. Unlike Mercy's Fall and Spring workshops which offer a broad overview of the SAT, this summer's series will focus on a few key

advanced topics covered on the SAT that students find most challenging.

Join us this summer by enrolling in one workshop or any of the three programs offered. Enrollment is limited, so apply now to ensure a spot.

Workshops will run from July 11—July 28 2011. See workshop listing for specific dates and times.

Come join us for a summer experience that will last a lifetime!
