

We are pleased to share that Mercy will be adding a 6th grade to our current school structure in the Fall of 2012, making our total offering grades 6 through 12. Mercy's new format follows the national model for middle schools of a grades 6-8 configuration.

Mercy is well positioned for the addition of a 6th grade. We have a separate wing for our well-established and high performing middle school with room for 6th grade classrooms on a separate floor in that middle school wing. Our principal, Terry Quinn, is an experienced middle school educator known state-wide for his leadership in middle school education and Mercy's middle school faculty is committed to meeting the unique needs of the emerging adolescent. We are delighted that the powerful advantage of an all women's Catholic education is now available at a critical stage in your daughters' lives.

Mercy is now accepting applications for 6th grade for Fall 2012. Opportunities for prospective 6th grade families to meet faculty, tour the school and gain information about all aspects of Mercy's middle school program, including curriculum, opportunities for acceleration, sports, clubs and service projects, will be provided through Open Houses, school activities and personal tours. For more information, call (585) 288-7120, ext. 310, or email admissions@mercyhs.com.

Sincerely,

Suzanne K. Johnston
President
